I chose this data because it's a sport I've played my entire life. It was also the first source that stood out to me when I was doing research on what dataset I wanted to choose.

elo2_pre	The relative skill level of players in zero-sum games.
pitcher1_adj	Home starting pitchers adjustment to their teams ratings
pitcher2_adj	Away starting pitchers adjustment to their teams ratings
rating1_pre	Home teams rating before the game
rating2_pre	Away teams rating before the game
